

15. International Scientific Wadden Sea Symposium
Abstract submission

Your submissions should be written in English and should address at least one of the six broad themes with various topics described at the ISWSS homepage and the effect of climate change on the Wadden Sea. Studies that provide an integral analysis of the ecosystem functioning combining several of the broad themes and topics are welcomed.

Please complete the information requested in the form below and send it to marina.sanns@lkn.landsh.de by 30 September 2020.

Successfully submitted abstracts will be acknowledged with a confirmation e-mail. You will get an author notification by 30 November 2020. If the abstract is rejected as a lecture due to a limited period of time in the theme session, there is the alternative to submit a poster.

Once the submission is accepted, at least one of the authors must register for the conference and present the submission at the conference. The time slot will be announced before the symposium. Authors are asked to submit their presentations by 28 February 2021.

With the submission of your abstract you consent that, in case of acceptance of the abstract, it is published in the symposium booklet and the symposium report.

If you have any questions or want to withdraw your abstract, please contact marina.sanns@lkn.landsh.de.
