

CORONA Protection Concept 2022

1 Current information

For the current situation we put the following measures in place for the protection of all participants, employees and partners at our conferences.

2 Aim

A great experience at a SKAN event means also, that people stay healthy. The protection of all people involved is our highest aim.

3 Behaviour and hygiene measures at the event

We stick to the rules of the local authorities. Furthermore, we stick to the following behavioral measures:

1. Whoever feels sick, coughs, has fever or flu-like symptoms stays at home!
2. Social Distancing, no handshake, 1.5m distance
3. Regular hand washing with soap, disinfecting hands in between. Disinfectants are available at the building entrances as well as on the toilets
4. To reduce the risk of infection from infectious aerosols, regular ventilation of rooms is carried out wherever possible
5. Event space: the minimum distance of 1.5 m is observed when arranging the seats
6. In the event of possible violations of the minimum distance, face masks will be provided by the organizer
7. Contact tracing: contact details of all people present will be collected by the organizer during the registration procedure
8. The size of the group is limited to a maximum of 30 participants, if no other local regulations are in place (registration is due to the first come, first serve principle)
9. Depending on the current and local situation:
A vaccination or convalescence proof needs to be provided upon arrival – alternatively a negative Covid test result (not older than 48 hours) is also accepted

4 Rules & Consent

1. All participants / partners agree, regardless of the length of stay, that they comply with the specifications of the SKAN protection concept and will adhere to the guidelines of the locally applicable regulations
2. During the stay within the event location, the customer/partner confirms to stay only in the areas specified for the event
3. Visitors always wear the visitor/participant batch in a clearly visible manner
4. Visitors/participants/partners must choose suitable hotels which follow the protective measures against COVID
5. During the whole event, all participants agree to not leave the event and come back at a later point. All participants stay in the outpointed event areas during the event
6. SKAN provides protection material (face masks, disinfectant, single-use gloves for the workshops) for every participant, which can be used during the event
7. Designated walking routes must be adhered to
8. Instructions from the event manager and location manager must be followed
9. If a participant belongs to a risk group, it is his/her own responsibility to protect him/herself and if necessary, to inform the event manager
10. By participating in the event, the participant confirms that he/she is not sick and follows the rules provided

5 Post-event procedure

In case a participant/partner receives a positive test result in the following 5 days after the event he/she must inform us as event organizer to initiate the further steps.

We reserve the right to make short-term changes.

Further notes of the event manager at the event are to be adhered to.
